

PETCHIAMMAL V

B.Tech AI & Data Science Student | Aspiring Data Analyst/AI Enthusiast

6380508966 | 727824tuad148@skct.edu.in | <https://www.linkedin.com/in/petchiammalv>

OBJECTIVES

B.Tech AI & Data Science student (3rd year) with hands-on experience in machine learning, data analytics, and web development through 5+ academic projects and 2 virtual internships. Seeking opportunities to apply data analysis and AI skills in real-world, impact-driven roles.

EDUCATION

Qualification	Institution/Board	Year	Percentage/Status
B.Tech(AI&DS)	Sri Krishna College of Technology	2024 -Present	Currently Pursuing(2nd year)
HSC(Class 12)	LFMHS School,[State Board]	2021-2022	91.6%
SSLC(Class 10)	LFMHS School,[State Board]	2019-2020	83.4%

SKILLS

Technical Skills	Soft Skills
- Web Technologies: HTML, CSS, JavaScript (Basics),React.js - Programming Languages: C++, Python - Database Management: Basic SQL, DBMS concepts - Tools: PowerBI,Figma(Basic UI design & simple prototyping)	- Time Management - Adaptability - Problem-Solving - Eagerness to Learn

CERTIFICATIONS & TECHNICAL ACTIVITIES

Certifications

- NPTEL: Artificial Intelligence in Human Resource Management (Elite + Silver, Topper Recognition)
- NPTEL: Cloud Computing (Elite)
- Tata GenAI Powered Data Analytics Job Simulation – Forage
- ServiceNow: Welcome to ServiceNow (Micro-Certification)
- React.js Bootcamp (5-Day)
- SoloLearn: C++, HTML, Java, and JavaScript

Hackathons & Competitions

- K-Hacks 3.0 – Anna University, Chennai
- PSG Infinitum – ForceCoders
- Naukri Young Turks 2025 & Unstop CodeClash

Workshops & Technical Events

- Participated in technical events organized by Thiran, including Data Visualization & Insights, Figma Contest, Masala Coding, and technical workshops.
- Generative AI & ChatGPT: An Hour with the Future
- Vector Search to AI Chat (RAG in Azure)
- AI Agents & Models in the Real World
- Dive into Python

PROJECTS

- **Personal Portfolio Website**
A responsive website built using HTML and CSS to showcase my certifications, projects, and contact details.
- **Boston Housing Price Prediction**
A machine learning project using Python and the Linear Regression algorithm to predict housing prices in Boston.
- **To-Do List Website**
Built a task-management website using HTML, CSS, and JavaScript with features to add, delete, and complete tasks.
- **Landslide Prediction**
Developed a machine learning model using EDA, feature selection, and preprocessing to predict landslide risk based on environmental factors.
- **Basic Calculator**
Created a web-based calculator using HTML, CSS, and JavaScript to perform basic arithmetic operations.

INTERNSHIPS

Microsoft Azure Intern – Microsoft Elevate | AICTE (Virtual, 4 Weeks)

Jan 2026 – Feb 2026

- Explored Microsoft Azure cloud services, AI & Machine Learning, Microsoft Copilot, and Power BI through hands-on learning modules under the Microsoft Elevate initiative.

AI & Data Analytics Intern – AICTE | Shell India | Edunet Foundation (Virtual, 4 Weeks)

Aug 2025 – Sep 2025

- Completed training on AI, data analytics, and green-skills concepts under the Skills4Future initiative.

EXPERIENCE

Campus Mantri – GeeksforGeeks

May 2026 – Present

- Represent GeeksforGeeks as a Campus Mantri, promoting technical learning initiatives and engaging with the student community.
- Encourage participation in coding events, workshops, and technical programs.
